On May 25, 2017 the committee thoroughly discussed potential process improvements that could be identified as our 17-18 Goal. She requested the committee to identify an area that is most important to each member and send it via email to both Melissa and herself. Dr. Gat requested mentoring to reps be made a priority. Mr. Hutchison suggested that a few items (handbook links, deadlines, and website concerns, etc) could be combined to make one goal. Dr. Echeverria suggested empty promises needs to be address for the sake of students. Faculty promise to make revisions and those changes never complete the approval cycle.</p> <p>CurricUNET Refresher-Dr. Wiewall announced that CurricUNET Meta unfortunately did not come to fruition this summer. company dragged their feet scheduling implementation dates over the summer. In the meantime we consulted with multiple institutions and found that users are still disappointed with the software. We were discouraged by others from using CurricUNET Meta. As a result, we will be looking at the possibility of using Elumin as the campus has recently purchased their software for the purpose of implementing a learning outcomes replacement for Weave. If we like it, the committee may agree to move in that direction. If the committee does not like it, we could decide to remain with CurricUNET.

Elumin Information / Work Group (Scott, Mark, and Michael)-
Dr. Wiewall requested those who agreed to work on the CurricUNET upgrade, agree to look at Elumin as a replacement to CurricUNET. Those noted agreed to review the Elumin software.

English Courses-Dr. Wiewall announced that the committee was originally under the impression that ENGL 100A would replace ENGL 095, ENGL 097, and ENGL 099. It was her understanding that after approving ENGL 100A, ENGL 095, ENGL 097, and ENGL 099 would be submitted as course deactivations. It was brought to her attention that the English faculty wish to hold off on submitting the course deactivations so they may evaluate whether students are moving successfully through the new ENGL 100A course.

TOP/CIP/SO Code Review-Mrs. Melissa Jauregui informed the committee of the importance of evaluating the codes assigned to courses and identifying whether they are appropriate. The committee was provided with a report of all courses and the codes assigned to them, along with a report on what qualifies a course to carry a particular code. Dr. Wiewall requested the committee to review the file and additional material sent to them for accuracy. They are expected share the information with the faculty members in their division and collect comments and concerns for reporting to the whole committee.

Max Enrollment Review-Dr. Wiewall indicated the committee and faculty should review course max enrollment as curricular changes are implemented. The report will be circulated for distribution to division faculty. Any requests to adjust maximum enrollment should be submitted through CurricUNET as a substantial course revision.

<p>NEXT MEETING DATE: 9/28/17</p>		<p>Dr. Darcy Wiewall thanked the committee members for their time. The meeting adjourned at 4:17pm.</p>

Dear AP&P Committee:

It has been brought to the attention of the music faculty that a discrepancy exists between the list of "Large Ensemble" courses that may be taken to satisfy the Associate in Arts in Music degree requirements (2017-2018 General Catalog pg. 295) and the courses listed as corequisites for MUS 291/292 (2017-2018 General Catalog pg. 300). The list of "Large Ensemble" courses that may be taken to satisfy the AA-T in Music includes MUSC 173, MUSC 273, and MUSC 274, while the courses listed as corequisites for MUS 291/292 do not include MUSC 173, MUSC 273, and MUSC 274. We would like to add MUSC 173, MUSC 273, and MUSC 274 to the courses listed as corequisites for MUS 291/292 so students may choose these courses as both a corequisite for MUS 291/292 and to count towards the 4 units of "Large Ensemble" needed for the AA-T in Music.

Please contact Gary Heaton-Smith if you have any further questions.
Thank you for your time.

DED#	DATA ELEMENT NAME	FORMAT
CB09	COURSE-SAM-PRIORITY-CODE	X(01)
This code is used to indicate the degree to which a course is <u>occupational</u> , and to assist in identifying course sequence in occupational programs.		

Coding	Meaning
A	<p>Apprenticeship (offered to apprentices only) The course is designed for an apprentice and must have the approval of the State of California, Department of Industrial Relations, Division of Apprenticeship Standards. Some examples of apprenticeship courses are: Carpentry, Plumbing and Electrician.</p>
B	<p>Advanced Occupational (not limited to apprentices) Courses are those taken by students in the <u>advanced</u> stages of their occupational programs. A "B" course is offered in <u>one specific occupational area only and clearly labels its taker as a major in this area.</u> <u>The course may be a "capstone course" that is taken as the last requirement for a career technical education program.</u> Priority letter "B" should be assigned sparingly; in most cases <u>no more than two courses in any one program</u> should be labeled "B". Each "B" level course must have a "C" level prerequisite in the same program area. Some examples of "B" level courses are: Dental Pathology, Advanced Radiology Technology, Fire Hydraulics, Livestock and Dairy Selections, Real Estate Finance, Cost Accounting.</p>
C	<p>Clearly Occupational (but not advanced) Courses will generally be taken by students in the middle stages of their programs and should be of difficulty level sufficient to detract "drop-ins". A "C" level course may be offered in several occupational programs within a broad area such as business or agriculture. The "C" priority, however, should also be used for courses within a specific program area when the criteria for "B" classification are not met. A "C" level course should provide the student with entry-level job skills. Some examples of "C" level courses are: Soils, Principles of Advertising, Air Transportation, Clinical Techniques, Principles of Patient Care, Food and Nutrition, Sanitation/Safety, Small Business Management, Advanced Keyboarding, Technical Engineering.</p>
D	<p>Possibly Occupational "D" courses are those taken by students in the <u>beginning</u> stages of their occupational programs. The "D" priority can also be used for service (or survey) courses for other occupational Programs. Some examples of "D" level courses are: Technical Mathematics, Graphic Communications, Elementary Mechanical Principles, Fundamentals of Electronics, Keyboarding (Beginning or Intermediate), Accounting (Beginning).</p>
E	<p>Non-Occupational These courses are non-occupational.</p>
