Open, ASO Representative

	Items	Action
I.	Call to Order	3:02 pm
II.	Approval of Agenda	Approved
III.	Opening Comments from Co-chairs	Distance Education training starting for those that have not had the training
IV.	Open Comments from the Public	
V.	Approval of Minutes	A. October 12, 2021 Minutes DETC Minutes Approved
VI.	Discussion Items	A. Yuja Video Presentation – Steven Pace presented on a product to potentially replace Knowmia. Currently AVC is under contract with Knowmia, they will be going out of business in the spring semester 2022. Yuja automatically captions the video made when it goes into the library. The captions run about 95% accuracy and will get better as a person uses the Yuja video. The person can also add words to a personal dictionary. The faculty can upload documents as well, such as YouTube, audio, pdfs, they are more flexible with this than Knowmia is. The process is drag and drop very simple to use. Yuja, can also be used with foreign languages, it does not translate

	though. Yuja also does many of the technologies that are used in Camtasia. They will provide the campus training, those that have admin right, faculty, they also have support for students. Yuja, can be used as a quiz tool as and will go to the Canvas gradebook. Yuja integrates very will with canvas our campus LMS. The instructor can share video straight from their video library. This allows the faculty to collaborate better. The technology will also allow the instructor to edit captions as needed. This can be used as a proctoring tool as well but that is an added service from the video recording and captioning. Quizzes and different types of assessments can be easily built into the video as a way to assess the students. The video will stop when the student gets to a question and when they answer the question they can advance in the assessment. Analytics will be provided from the view and assessments for the instructor. Support can be done through email, chat, toll free number, video tutorials. This is available for everyone, faculty, students and administration. They are willing to give some test accounts out to those that would like to try the service. B. Class Technologies Inc. – Presentation Review The question of accessibility and whether there were any other products that are out to look at and compare. Class technologies said they would be able to meet the ADA requirements by December. We would not be able to do anything with them until they meet those requirements C. DETC Handbook – Perry Jehlicka Asked the committee to review the handbook and provide feedback for the meeting on November 9th.
VII. Action Items	None
VIII. Adjournment	4:05 pm
NEXT MEETING: October 10/26	Fall Meeting dates 10/26, 11/9, 11/23
