<i>Guest: Carina Giorgi, Amy Andrada</i>		<i>*Absent</i>		
Items	Person	Action		
I. Opening comments from the Co-chair	<i>Scott Lee/Howard Davis</i>	This meeting was called to order at 3:01p.m. Dr. Lee thanked the committee for handling the last meeting without him. He was sick with COVID, but he is feeling much better now. Honors courses are moving through, so keep an eye on them as they come through the queue. Dr. Davis thanked Kathryn Mitchell for leading the last meeting during his and Dr. Lee's absence.		
II. Minutes 1/26/2023	<i>All</i>	Motion to approve: Minutes for 1/26/23 Motion second Comment: Debbie said that attendance was revised and Dr. Davis' Designee for the last meeting was Kathyn Mitchell. Abstained: Dr. Howard Davis and Dr. Scott Lee Motion approved		
III. Informational Item - Meeting schedule: 2/23/23, 3/23/23, 4/13/23, 4/27/23	<i>Scott Lee</i>	Please be aware the next meeting is on 2/23/23. There will be only one meeting in March due to Spring Break.		

Academic Policies & Procedures

<p>IV. Discussion</p> <ul style="list-style-type: none">- Adding a Second Faculty Co-Chair- Forming a Committee Size Workgroup- Changing Course/Program Approval Process- Certificate of Proficiency<ul style="list-style-type: none">- only programs with less than 9 units	<p><i>Scott Lee</i></p>	<p>Discussion:</p> <p><u>Adding a Second Faculty Co-Chair</u></p> <p>There are currently two co-chairs, one faculty and one administrator. Some schools use a tri-chair system; two faculty co-chairs and one administrator. There would be great value in adding a second faculty co-chair. This is usually a counselor.</p> <p>Dr. Lee spoke with Dr. Jessica Eaton, who is interested in serving as the other faculty co-chair. He asked for everyone's thoughts on adding a second faculty co-chair.</p> <p>Dr. Davis said that it should be a position, as opposed to a person. So, if we decide to proceed, we need to decide if it will be counseling faculty or designated as the Articulation Officer, or how we will designate that position.</p> <p>Dr. Lee said if it is the Articulation Officer, it will then need to be approved through the Articulation Officer and the Union.</p> <p>Comment: Cindy Hendrix asked if there would be any release time for the person. Dr. Lee replied that it will need to be worked out between the Senate and Administration and then codified into the contract. This is a detail that needs to be discussed further.</p> <p>Comment: Lisa Karlstein asked if this would go out through the Senate, or what the process will be. She asked if we are creating a process or if there is already a process in place.</p> <p>Dr. Lee will check the Senate's by-laws and they will need to approve a change to the structure of leadership. The Senate will also need to approve who will do the position. If it's a counselor, the Senate will need to approve if they want counseling to decide who that person will be. If it's a new position, it will need to go through the application process.</p> <p>Dr. Davis asked Luis Echeverria and Tanya McGinnis what their thoughts were. What would counseling prefer?</p> <p>Comment: Luis Echeverria said that he would have to check with faculty, but his concession is that it would be the Articulation Officer (AO). Having the AO would provide more consistency. The knowledge of the AO is invaluable. Dr. Eaton</p>
---	-------------------------	---

Academic Policies & Procedures

is at a higher level than a counselor. She was a counselor before she became an AO. Dr. Lee said that any future AO will have this responsibility as part of the job requirement. He reminded everyone that this is just an introduction to this topic. He requested everyone to discuss it further with their divisions and bring back feedback. This will be an action item for the next meeting on 2/23/23.

Forming a Committee Size Workgroup

There have been questions about expanding the number of representatives in certain areas. There is a risk of having too many representatives, making it difficult to meet quorum. There are a couple of different options to explore. Dr. Lee suggested forming a work group and asked for volunteers to get information and bring back feedback. There were no volunteers.

Dr. Davis said that the lack of response would indicate to him that there is not a burning desire to change it.

Dr. Lee said that due to the lack of interest, it will be put aside for now and if necessary, it can be revisited.

Changing Course/Program Approval Process

There has been difficulty approving the large number of courses that become due for approval in the fall. Dr. Lee would like to discuss and explore a change to the approval process. There are two large aspects:

1. Some other schools have a more structured process that has specific periods of time per division/discipline to review and submit programs and courses. The advantage is that it provides a more holistic view of the discipline being reviewed. Dealing with one area at a time will simplify the review process. This allows a more strategic approach.
2. We currently have a Tech Review group. Moorpark College has a Tech Review Committee that meets with the instructor and addresses issues that are dealt with in one meeting, rather than catching items and addressing them at different

Academic Policies & Procedures

		<p>times. Having a separate sub-committee will follow the Brown Act, including agendas and minutes. This will be helpful for the AP&P Committee meeting.</p> <p>These two changes would add more structure and predictability to the process. The committee struggles through the review process every Fall and this is a way to move towards a more efficient process.</p> <p>Dr. Davis added that the last piece would be a yearly schedule and 5 year schedule.</p> <p>Dr. Lee Informed everyone that some courses and programs would have to be revised earlier to bring it all together to see what is coming due in the next five years. We hope to have it ready for the next meeting.</p> <p>Comment: Lisa Karlstein said that she thought it would be a really good thing and not so overwhelming for the committee. It can serve as workgroups for each discipline during the revision process.</p> <p>Comment: James Dorn shared a Program Review and Assessment Cycle. Over the course of two years, the program review, SLO, and PLO dictate and drive program review.</p> <p>Dr. Lee said there are a number of different approaches that can be taken. The main thing is providing predictability so everyone can plan for their programs and courses.</p> <p>Wendy Stout asked about the CTE division and how we would figure out these changes. She said that for her division, the accreditation board could say that they need to make an immediate change and they would have to make that change.</p> <p>Dr. Lee said that in the Fall, workflows trickle in and then everything comes in at one time. When it's a predictable flow, it's easier to respond.</p> <p>Comment: Luis Echeverria asked how it would differ with a possible Tech Review Sub Committee.</p> <p>Dr. Lee said that if we are doing a specific discipline in a specific month (if it's small enough) it will be more efficient. Some larger divisions may have to be split up.</p>
--	--	--

Academic Policies & Procedures

	<p>Comment: Luis Echeverria asked if this model will allow us to continue workflows through the counseling stage and the Tech Committee? Dr. Lee and Dr. Davis said that it would be both. Moorpark has a counselor, chair, and another person in their Tech Committee. We may find that we need fewer stages in the workflow process. While it's not the plan at this moment, it may be a discussion at a later time. Workflow stages are staying the same right now. The Tech Committee will be able to meet with faculty and fix problems in the meeting before it goes to AP&P.</p> <p>Comment: Ronda Nogales said that after reviewing courses, she caught something in one workflow and realized that she had to go back and check other courses. It would allow the committee to address things all at one time. It will condense everything. This will come back as another discussion item and he hopes to have the 5 year plan available for discussion. He will talk with the Senate after we have more discussion.</p> <p><u>Certificate of Proficiency</u></p> <p>This applies to programs with less than 9 units and was discussed back in November. Dr. Davis said that there is no legal requirement. However, anything above 9 units should be converted to a Certificate of Achievement, which is recognized at the state level. If there are certificates below 9 units, Dr. Davis suggests adding additional units to convert them to a Certificate of Achievement, which allows students to receive financial aid. Local certificates are not eligible to receive financial aid.</p> <p>Dr. Davis said that AB928 has language that we should have a singular degree. If there is a local degree and an AD-T, we need to have one degree. He will research this further and we will need to use only one.</p> <p>Comment: Kathryn Mitchell said If there is an AD-T available, that is the degree that we need to keep. We will eventually need to replace the local degrees with AD-Ts.</p> <p>Dr. Lee said that we need to prepare for it. Dr. Davis said that we will need to deactivate the</p>
--	---

Academic Policies & Procedures

		<p>local degrees if there is an AD-T. He will need to check on the due date.</p> <p>Dr. Lee said that these changes will be coming up from Sacramento.</p> <p>Comment: Luis Echeverria said that some local degrees have different aims than the AD-Ts. This will need to be looked at closer.</p>
<p>V. Reports</p>		
<p>VI. Action - Determine Meeting Modality for Semester</p>	<p>Scott Lee</p>	<p><u>Action Item:</u> Determine Meeting Modality for Semester</p> <p>Dr. Lee said that we are currently operating under the Emergency order to have online meetings, which will end this month. The Brown Act will allow hybrid meetings, but the quorum needs to be met in person. This means that we risk not meeting quorum and being able to hold the meeting.</p> <p>When do we start; February or March?</p> <p>Dr. Davis said that if we go to a hybrid model, we need to find out who will be there in person. We will need an RSVP system for being there in person to confirm the number that will be present in person.</p> <p>Dr. Lee asked, "How does everyone feel about going back to all in person?"</p> <p>Comment: Greg Bormann asked if there will be a room available for hybrid?</p> <p>Comment: Lisa Karlstein said that she thinks she knows of a room in Yoshida Hall that has the technology needed for hybrid. Dr. Lee asked her to send the room number.</p> <p>Comment: Kathryn Mitchell said it will depend on scheduling. It's open this semester.</p> <p>Comment: Greg Bormann said that we can rearrange DL-111 to meet the needs of the committee.</p> <p>Dr. Lee said at the end of 2024, the Brown Act comes back in full. This means it will have to be all in-person by January 2025. Otherwise someone can challenge the legitimacy of the meeting.</p>

Academic Policies & Procedures

		<p>Comment: Gabby Poorman suggested going back to live now, since it will be required in the future.</p> <p>Motion to approve: Move AP&P meeting back to in-person by March 23, 2023.</p> <p>Motion second</p> <p>Comments: Heidi Williams asked about those who will no longer be able to attend the meeting. Dr. Lee said they will probably have to be replaced.</p> <p>Comment: Ronda Nogales would not be able to participate.</p> <p>Comment: Wendy Stout said she'll figure out her schedule.</p> <p>Dr. Davis said it would make sense to allow Ronda to high-flex into the meeting. He suggested taking names when sending out the agenda. He asked Robyn Serrano to see how many will need to be hybrid.</p> <p>Comment: Heidi Williams said that there is a computer lab that is limited.</p> <p>There are three more meetings this semester. Dr. Lee asked Ronda if she would be able to arrange her schedule for Fall.</p> <p>Motion to amend the last motion approved: Motion to move back to in person meetings, allowing members to attend online only with advanced notice. We will need to limit Zoom for RSVP.</p> <p>Motion second Motion approved</p>
--	--	--

Academic Policies & Procedures

<p>Program Revisions Biology AS-T Geography AA-T Sociology AA-T</p>	<p>Scott Lee</p>	<p>Program Revisions: Motion to approve: Biology AS-T Motion second Comment: Biol 105 & Geol 102 are missing AAMs for both courses on TMC. They were missing from the course block. Dr. Eaton will send out a request for AAM for BIOL 205 and Geology 102. Motion tabled</p> <p>Motion to approve: Geography AA-T Motion second Comment: Robyn emailed Mike Pesses, uploaded the TMC, moved GEOG 110 from Required Electives A in course blocks, changed the units for GEOG 201 from 3 to 4 on the TMC, updated the credit range from 0-0 to 60-60 and added verbiage to transfer applicability in the Program Narrative tab. All changes were approved by Mike Pesses. Motion approved</p> <p>Motion to approve: Sociology AA-T Motion second Comment: Robyn said that she contacted Amy Andrada and with her permission, she moved a couple of courses in the course blocks to match the TMC. SOC 200 was moved from required to List A and SOC 116 was moved from List B to List A. Motion approved</p>
<p>VI. Closing Comments</p>	<p>Scott Lee</p>	<p>Closing comments: Dr. Lee said there is a lot happening and it's vital to have a large campus conversation. Dr. Davis thanked everyone. Motion to adjourn meeting at 4:25 p.m. Motion seconded Motion approved</p>
<p>NEXT MEETING DATE: February 23, 2023</p>		

AB1111 Analysis and Planning

Below is a list of recommendations/ideas for the implementation of AB1111:

1. Courses with the same course number should have the same number of units, but individual colleges should be allowed flexibility to decide the balance between lecture, lab and activity to meet the unit count. (Minimum units of lab required by UC/CSU must be followed)
2. Build on the good work done on C-IDs: Uniformly utilize across the system:
 - a. **Prefixes** established in C-ID - BIOL versus BIO for instance
 - b. **Standardized title** established in C-ID
 - c. **Course descriptor**
 - d. **Top-level outline of topics** to be covered in each course. Allow college-level variation on sub-topics. When necessary, augment existing C-ID content to a full top-level outline
 - e. *Not* the *number* established in C-ID. These are not systematically similar across disciplines.
3. After the implementation of AB1111, articulation should no longer be done college by college, but at the system level.
 - a. That is, each common course across the system will uniformly be applicable to general education and major requirements. Once a college established, for instance AB 1111-aligned BIOL 1001, it must automatically satisfy specified GE and Major-prep requirements across all university partners, voiding the need for course-to-course articulation of each *college's* version of BIOL 1001 with each CSU and UC's version of the class.
 - b. This will require a shift in articulation processes and in approach by the transfer partners. Will the CSU system accept courses with the same number but a wide variance of delivery mode?
 - c. Articulation officers play an important role in this conversation.
4. Course numbering recommendation based on analysis by Brian Sanders:
 - a. Existing 3-digit codes across the system preclude reuse of 3-digit codes
 - b. District ERPs generally permit 4-digit codes
 - c. **Establish a hierarchical system of 4-digit codes designed to illustrate level and purpose of each course**
 - d. Noncredit courses numbered 0000-0499
 - e. Pre-transfer-level courses numbered 0500-0999, with
 - f. 0500-0799 reserved for *local use* and allowed to be variable by college

- g. 0800-0999 reserved for *statewide common numbering*. Examples include perhaps:
 - i. C-ID X-coded courses, such as HOSP-100X becoming HOSP 0800
 - ii. Allowable pre-collegiate math course, such as Intermediate Algebra for current HS students at MATH 0950
 - iii. Non-transferable support courses in English and Math in a specified number zone
 - h. Freshman-level courses numbered 1000-1999
 - i. 1000-1499 reserved for *statewide common numbering*
 - ii. 1500-1999 allowed to vary for *local use*
 - 1. Ex: All freshman stats would be MATH 1110 at every college in the system
 - 2. Ex: Since few colleges have forestry courses, utilize FOR 1500 for Intro to Forestry at one college and FOR 1500 for Forest Dendrology at another - *not common numbering*. But if Intro to Forestry is established as a common course across the system, shift to, for instance, FOR 1000.
 - i. Sophomore-level courses numbered 2000-2999, broken out as above
 - j. Junior-level courses numbered 3000-3999
 - k. Senior-level courses numbered 4000-4999
- i. Within each subject code, expect principles of ordinality to be employed when appropriate. Expect subject-matter experts to establish *numbering ranges* for specific types of courses.
- i. Math Example: Math might have a series of entry-level transfer classes including stats and liberal arts math numbered 1000-1099, precalculus numbered in the 1100s, calculus in the 1200s. Then calc 3, differential equations, and linear algebra would be in the 2000s as sophomore-level classes along with organic chemistry, advanced art, music specialization courses, etc.
 - ii. Music Example: Music might have ...
 - 1. Music appreciation from 1000-1099
 - 2. Music theory from 1100-1199
 - 3. Music ensembles from 1200-1299
 - 4. Individual music performance (applied music) from 1300-1399
 - 5. Local, non-common-numbered courses numbered 1500-1599
 - 6. Sophomore-level music theory from 2100-2199

7. Advanced (sophomore-level) music ensembles from
2200-2299

5. Curriculum updates and changes:

- a. How do we process these updates as a system?
- b. How do we ensure that colleges implement updates?
- c. Recommendation: align with C-ID. Use a 6 year cycle similar to ADTs.
- d. Creation of a system-wide curriculum committee to oversee curriculum development and changes.
 - i. Maybe the system-wide curriculum committee is a growth of 5C
 - ii. Ensures review of each Common-Numbered Course every 6 years, then each college ensures alignment with the Title, Description, and Top-Level Content of the revised state master

6. Implementation process:

- a. Where do we start?
- b. One suggestion is to use a staggered approach to start with Gen Ed. or the Golden 4. This approach targets the courses that see the highest enrollments and appear in the highest number of degrees. But ... this will be unworkable.
 - i. For example, some anthropology courses would still be listed as ANTHRO 151 and ANTHRO 165, while the common-numbered courses would become ANTH 1010 and ANTH 1020.
 - ii. We can't expect students to search for one subject's classes in two different subject codes.
- c. Another approach is to stagger the work but use a single launch for the implementation of the entire numbering system. This would avoid confusion for students. All Sociology courses across the system would switch to SOCI 1110 and SOCI 1150 at the same time, while any local (non-common-numbered courses) would be SOCI 1525 and SOCI 2030 (e.g. sophomore-level local capstone work experience course) To avoid confusion, change the *entire slate* of subject codes and numbering zones at once. Move all common-numbered courses to specified codes numbered in the x000-x499 zone and all non-common-numbered courses to the x500-x999 zone.
- d. For the transition, suggest:
 - i. Phase 1 (2 yrs): Display the existing course number and append the common course number. Also allow searching for the common course number using CVC/OEI and local search engines
 - ii. Phase 2 (2 yrs): Flip the switch - move all courses to the new numbering system and display "Formerly offered as" and the local designation.

- e. AB1111 implementation will have an impact on catalog. Need to address catalog rights and clarity for students.
 - f. Technology, infrastructure and resource allocation:
 - i. Consider a system-wide enterprise system to support implementation - same course, same code, same system, same approach across the state.
 - ii. Colleges will need financial and technical support. Including:
 - 1. Augmented curriculum committee staff
 - 2. Augmented articulation staff
 - 3. Augmented programming/website/catalog production staff
 - iii. Colleges will have individualized needs and capacity to process the change. Need for a focused centralized system to address and support individual college needs-rural, single college, etc.
7. Question: What about CTE fields that do not have a statewide C-ID subject code yet, let alone course descriptors? Possible option:
- a. Phase 1- Keep existing local subject codes but shift numbering to 1500-1999 zone, 2500-2999, etc
 - b. Phase 2 - Convene subject matter groups to select unified statewide subject code
 - c. Phase 3 - Establish core common-numbered courses
 - d. Phase 4 - Roll local subject codes to new statewide subject codes and common-numbered courses to 1000-1499 zone, etc.
8. Clear communication with students is paramount to avoid confusion.
9. Other issues: loss of local control.

Submitted by Isabel O'Connor, Rebecca Bocchicchio, Brian Sanders and Omar Torres
