- ❖ **70 units transferred from the CCCs to CSUs (40 units of pre-requisite and GE requirements plus 30 nursing units)**
- ❖ **6 additional credits provided by CSUs to ADN to BSN students per EO 1084 (as only 30 of the 36 nursing units are included in the 70 transfer units).**
- ❖ **44 other units to be completed at the CSU level. These units to include all nursing and other course necessary to obtain a BSN.**
- ❖ **Cumulative total for an ADN graduate to obtain a BSN = 120 units**

Course Examples

Introduction to General, Organic and Biological Chemistry (5 units)

A one-semester course covering the basic principles of general, organic and biochemistry as needed to understand the biochemistry, physiology and pharmacology of the human body. This course is intended for students planning to transfer to a California State University nursing program. (Grossmont College)

Microbiology (4)

A study of microorganisms including anatomy, physiology, genetics, and ecological importance. Emphasis will be on the role of microorganisms in disease and the mechanisms of microbe/host interactions. Laboratory work emphasizes the importance of aseptic techniques, methods of microbial control, and procedures for isolating, culturing microbes, and identifying microorganisms.(College of the Redwoods)
